Law Enforcement Activity

Overview:

Law Enforcement Activity (or Police Activity) refers to the many ways response personnel enforce laws, maintain public order, and protect life and property. These activities include investigating, detaining, and apprehending suspected criminals, as well as patrolling, conducting traffic stops, and managing crowds. Occasionally, the public needs details about law enforcement activity in order to remain safe and calm.

NOTE: The term “police” is a plain language substitute for “law enforcement.” While “law enforcement” may be more technically accurate, “police” allows for greater understanding and better results if machine translation is used.
